## Honest-1 Auto Care Offers Eco-Maintenance

With environmental concerns top of mind and many putting the blame on automobiles, you can take your auto maintenance to the next level with an ECO TuneUp and ECO Oil Change from Honest-1 Auto Care. As a full-service auto repair and maintenance chain, Honest-1 Auto Care is 100 percent ESA certified eco-friendly. With strict company regulations, Honest-1 is dedicated to recycling auto materials,

preventing pollution and conserving resources. The company has also developed an exclusive line of new products that are designed to increase fuel efficiency and decrease engine emissions.

The ECO-TuneUp includes a 21 point inspection, lifetime air filter, platinum spark plugs, premium spark plug wires, new distributor cap and rotor, new fuel filter, Honest-1 Fuel Treatment with ECO 360 and a tire pressure evaluation. This service, like the other eco-friendly services they offer will improve fuel economy, reduce emission, decrease hazardous materials and save you money, among other things.

There are currently 19 Honest-1 locations throughout the U.S. and the company plans to double that number in 2009. Check out an [Honest-1 location](#) to give your car an environmentally-friendly treatment.
